Mr. Joseph K. Nicholes has moved his family into his new bungalow on Second West and Third South. He appreciates the Interurban railroad system very much, as he is able to ride to Provo and back each week, where he is teaching in the B. Y. University this winter.

What Happened to the Evidence

The case of American Fork City vs. Lawrence Johnson is being tried in the District Court at Provo yesterday and today. This is the case where two Salt Lake detectives got off the train at Lehi, and representing themselves as "drummers" hired Johnson to drive them to American Fork.

Here Johnson introduced them to the Granite club and they secured a bottle of whiskey, which the original complaint charger was obtained from Owen Hanson and Johnson. The case against Hanson was dismissed and Johnson will probably suffer the same fate, because the bottle of liquor supposedly left in the city archives cannot be found. The officers are wondering what has become of it.

New Train Schedule

Effective Friday, October 9th, the S. P. L. A. & S. L. passenger train No. 61, which for some time past has been arriving at this station 9:38 p. m., will change time, leaving Salt Lake at 7:35 a. m.; arriving American Fork 8:45 a. m.; this train has Nephi as terminus; return to Salt Lake and due at American Fork 4:41 p. m., as at present.

Train No. 61 will carry passengers for points south of Nephi, allowing such passenger to transfer at Provo or Nephi, enabling them to get train No. 19, the Pacific Limited.

There is no change in time of through trains.

Cheaper Fares

Mr. G. W. McDonald, agent Salt Lake Route, advises us as we are going to press that his line have put into effect a new passenger rates, effective Sunday, October 11, 1914, cutting their passenger fares to points competitive with the Interurban. Hereafter passenger fares between American Fork—Salt Lake to Provo will be the same as now charged by the Electric line.

Information About Utah Farms

(From last Federal Census Reports)

Utah has 21,676 farms; of this number 19,956 are operated by owners and managers and 1,720 by tenants.

Ninety-two per cent of the farms of this state are operated by owners and managers and eight per cent by tenants.

The farm home owners and managers of Utah cultivate 1,269,000 acres of land and the tenants till 100,000 acres in this state.

The value of the land and buildings of the tenant farms of this state is \$9,582,000; that of the home owners and managers is \$107,963,000.

Utah Farmers Move Frequently

Washington, D. C., Oct. 8.—In compiling data for the last Federal Census, the enumerators asked every farmer in Utah this question: "How long have you lived on the farm you now occupy?" This question was answered by 17,441 of the 21,676 farm operators in this state. More than 2,000 stated that they had occupied their farms only a year or less; 4,133 from 2 to 4 years; 2,994 from 5 to 9 years and 7,881 10 years and over.

The most restless class of people in this state is the tenant who operates his farm on the share basis. There are 834 of these farmers in this state; 842 of them made answer to the query and their replies indicated that 375 or about 22 per cent of them moved every year.

Results of Frequent Change by Farmers.

Washington, D. C., Oct. 8.—An official of the Federal Census Bureau, in discussing the report recently issued by the government dealing with the term of occupancy of farms in the United States, said:

"This frequency of moving from farm to farm, or instability of occupancy, very likely forms one of the chief causes for the decline of rural prosperity, or is a hindrance to greater progress. Frequency of removal of farmers results in general shiftness; the roads and bridges are generally in a poor condition because the farmers, moving at frequent periods, are not particularly interested in their upkeep. Farm buildings of such farmers are not usually in good repair, as the farmer who is about to move will leave the repairs for the next tenant to make. The same reasons will apply for the lack of interest by the 'unstable' farmer in the schools, churches and general welfare of the community. They move frequently; they do not remain on a farm long enough to get the best results from it, consequently they are usually in a poor financial condition."

Ownership of Utah County Homes

The United States Census Department at Washington has just issued a bulletin dealing with the ownership of Utah County homes. The important facts contained in the bulletin relative to this county are as follows:

There are 7,682 homes in Utah county.

Of this number 2,320 are farm homes. 1,064 of the farm homes are owned by their occupants and are free of mortgage incumbrance.

The mortgaged farm homes number 433.

Renter occupy 213 farm homes in this county.

Urban Homes

Out of a total of 7,682 homes in the county 5,362 are urban homes.

There are 3,665 urban home owners in the county.

Of this number 442 are mortgaged. 3,199 of the urban owned homes are free of incumbrance.

There are 1,559 rented urban homes in the county.

The census enumerators were unable to secure data pertaining to the ownership of a small percentage both the rural and urban homes in this county.

A Factory On the Farm

A silo is a factory on the farm and therefore lends itself to co-operation with the commercial and agricultural interests. The farmer gets the profit of both producer and consumer.

We need more of these twin agencies of prosperity on the farms of Utah and business men cannot render a better service to their communities than encouraging the building of silos. The silo is a great business educator. It arouses the spirit of enterprise, develops business ingenuity and awakens the joy of ownership.

A farmer can build a silo for two or three hundred dollars, and it will, under ordinary conditions, pay a dividend of 40 per cent, where it is run to capacity.

The Undertaker a Developer

There are in many communities successful business men and farmers who stand like stumps in the highways of progress and in such a situation the undertaker is an important factor in development. Scarcely a day passes that they do not add a new terror to death by refusing to join with public spirited citizens in a movement for the upbuilding of their community or by their indifference snags and enterprise.

It takes live men to build a community and there is no sadder sight in life than a few people, spirited citizens, staggering under a load of dead timber. The undertaker is of times a developer.

Loss of Appetite

Is the first signal of disorder and decay. The usual loss of appetite is often caused by functional disturbances in the stomach. The stomach fails to do the work required, the appetite is gone, and the body suffers from lack of nourishment. Such a stomach needs to be cleaned and sweetened. Meritol Tonic Digestive is made especially to assist the stomach to digest food and promote a healthy appetite. This remedy is sold on our positive guarantee, and we ask you to give it a trial. It is a genuine tonic. Price \$1.00. F. M. Brown, American Fork, Utah, Sole Agents.
